

MOHAMMED ASAAD DANGI

Software Engineer | Site Reliability Engineer | Frontend Engineer | Entry level | Full Stack Development
+91-7022909765 | asaaddangi20@gmail.com | [Portfolio](#) | [LinkedIn](#) | [Github](#) | Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Full Stack Developer with 3 years of freelance experience designing, developing, and deploying scalable web applications. Proficient in React.js, JavaScript (ES6+), Node.js, and Express.js. Experienced with MySQL, PostgreSQL, and MongoDB for relational and NoSQL data management. Skilled in Java, Spring and Hibernate ORM for backend services. Hands-on experience with Docker for containerisation and AWS (EC2, S3) for cloud deployment. Focused on delivering clean, production-ready code with REST API development and agile best practices.

TECHNICAL SKILLS

Languages: JavaScript, Java, SQL

Frameworks: React.js, spring , Node.js, Express.js

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Docker Compose (microservices) GitHub Actions

Databases: MySQL, PostgreSQL, MongoDB, Redis

Tools: Git, JIRA, Postman, IntelliJ IDEA, VS Code, Packet tracer, Wireshark

Networking: CCNA Basics, TCP/IP, OSI Model, Routing & Switching, Subnetting, VLANs, DNS, DHCP, Network Troubleshooting

Messaging & Real-time systems: RabbitMQ, Apache Kafka, Websocket

WORK EXPERIENCE

Freelance Full Stack Developer

Jan 2022 – Present

Self-Employed (Remote)

- Designed and developed a full-stack e-commerce web application with React.js frontend, Node.js/Express.js REST APIs, and MongoDB for product catalogue and order management — integrated Razorpay payment gateway
- Developed a full-fledged Cricket Scoring Application with real-time score updates using Socket.io and Node.js, featuring live ball-by-ball commentary, scoreboard management, over tracking, wicket logs. — demonstrating expertise in real-time web development and large data modeling, WebSocket architecture, and full-stack engineering.
- Built an event management platform enabling end-to-end event creation, attendee registration, ticketing, and real-time seat availability tracking using React.js, Express.js, and PostgreSQL
- Developed a restaurant table booking and menu management system with JWT-based authentication, role-based access control (RBAC), and MySQL database — deployed on AWS EC2 with Docker containerisation
- Developed a React.js-based web application for exploring movies, TV shows, and personalities using TMDB REST API integration, featuring trending content discovery, category-based filtering, trailer integration and fully responsive UI — demonstrating proficiency in API consumption, component-based architecture, and frontend development.
- Implemented CI/CD workflows using GitHub Actions and Dockerised deployments on AWS, reducing manual deployment effort by 40%
- Optimised PostgreSQL and MySQL queries and introduced database indexing strategies, improving application response time by 40%
- Collaborated directly with 50+ clients to gather requirements, deliver iterative releases, and provide post-launch technical support

EDUCATION

M.C.A in Computer Science

2024 – 2026

Amity university, Noida | CGPA: 8..02 / 10

B.C.A in Computer Science

2021 – 2024

Karnataka university dharwad, (KUD) | CGPA: 8.2 / 10

Languages Known: English (Professional), Kannada (Native), hindi (Conversational)

Work Authorization: Indian Citizen – eligible to work across India
